

**THE SOUTH AFRICAN NURSING COUNCIL —  
CELEBRATING 75 YEARS OF SELF-REGULATION**  
**Thank you for your support**

## Dear Stakeholder

We appreciate your valuable contribution during this past year and would like to take this opportunity to thank you for your support.

May you and your loved ones have a blessed festive season and a well-deserved rest.

Our resolutions for the new year is to serve you even better and to continue making a positive difference as regulator of Nursing.

May the year 2020 be a year of blessings and success.

# PERSAL DEDUCTIONS

## – an update

- 01 If PERSAL has not deducted from your salary by 15 December, please speak to your HR Department to check when and if they will be deducting.
- 02 If they are not going to deduct during December, we suggest that you pay your annual fee directly to the SANC to avoid missing the deadline of 31 December 2019 and thus paying restoration fees.
- 03 **Note:** Bank transfers take 3 working days, so ensure that your last day that you make a transfer is 24 December 2019, in order for the payment to reflect in the SANC account by 31 December 2019.

### I believe in communities.

Communities make change happen.

Communities are the best hope for ending AIDS because communities have fought against HIV right from the beginning!

As the epidemic raged through our countries, cities, villages, women held communities together and bore the higher burden of care for their families.

For far too long we have taken their volunteerism for granted.

In the face of adversity, communities of gay men, sex workers and people who use drugs have organized themselves to claim their right to health as equal citizens.

So, we know that communities have proved their worth. There is no debate there.

Without communities, 24 million people would not be on treatment today. Without communities led by women living with and affected by HIV, we would not be close to ending new HIV infections among children, raising orphans and caring for the sick.

Twenty-five years ago, a Burundi woman called Jeanne was the first person to disclose that she was living with HIV. Today, Jeanne is holding leaders accountable and fighting for the right to health care.

Pioneers like Jeanne have been joined by younger leaders, like 20-year-old Yana, who was born with HIV in Ukraine. Yana founded Teenergizer, a group bringing together young people across eastern Europe. In a world where power resides with old men, she wants her peers to have a voice and a choice.

Consider Fiacre. He lives in Central African Republic, displaced by conflict along with thousands of others. Fiacre cycles to a clinic, crossing barriers and checkpoints to collect antiretroviral medicines for him and members of a group he belongs to. Without this support, each person would have to make the dangerous journey on their own. Simply amazing.

As you can see, communities make the difference all over the world.

However, the way communities are being taken for granted has to change.

On World AIDS Day, UNAIDS salutes the achievements of activists and communities in the struggle against HIV. We remember and we honour all those whom we have lost along the way. Activists challenged the silence and brought life-saving services to their communities. But the countless contributions by women and many others can never replace the responsibility of governments.

Let me remind you, governments committed to at least 30% of HIV services being community-led.

They also agreed that 6% of all HIV funding go to community mobilization, promoting human rights and changing harmful laws that act as barriers to ending AIDS.

Let's be clear, defending human rights and challenging discrimination, criminalization and stigma is risky work today.

So, we call on governments to open a space so that activists can do the work they do best.

With communities in the lead and governments living up to their promises, we will end AIDS.
